Art. 2

The event on 24 – 26 May 2024 is planned for cars of any type or marque built up to 1990. The vehicle shall be preserved and maintained in an historically correct unmodified condition. A correct restoration to original specification is also acceptable. Modifications (deviations from specification) that took place in period (20 years for cars built between 1925 to 1945 and 15 years for cars built in other periods) are acceptable (proof of period modification maybe requested). Out of period modifications such as a new or changed body or modern components are not acceptable. Components that are requested to drive the vehicle in modern traffic are also acceptable (e.g. aux fan discretely mounted, hazard lights or an auxiliary fuel pump in pre-war vehicles. The final inspection of cars with respective documents will be carried out on site by Concorso Villa d'Este Committee Experts at Villa d'Este on Thursday, 23 May 2024, from 14.00 – 19.00 or on Friday, 24 May 2024, from 08.30 – 18.30. The Concorso d'Eleganza Villa d'Este is to be staged in Cernobbio as detailed in the full programme supplied to entrants.

Art. 3

Cars shall be selected on the basis of their historic, technical and aesthetic interest, their rarity and authenticity, as well as the elegance and sophistication of their styling. The Selecting Committee nevertheless reserves the right to accept cars, which do not fully conform to these requirements on the basis of a particular interest in such cars. Should the Jury decide to award one of the available prizes to any of these cars, its decision must be justified. Prior to the final selection of entrants, candidates agree to have their car inspected by a representative of the Selecting Committee, subject to appointment.

Art. 4

The Concorso d'Eleganza Villa d'Este welcomes applications from collectors and private owners but is regrettably unable to consider applications from dealers or owners who intend to sell their vehicles within the next 12 months after the event. By applying to enter, owners confirm that their car is not for sale, nor is a sale planned within the next 12 months. If cars are shown at the Concorso d'Eleganza Villa d'Este and subsequently sold within this period, the Selecting Committee will not consider any further applications from those entrants for two years afterwards.

Art. 5

Cars admitted to the Concorso d'Eleganza Villa d'Este, with the sole restriction of one car per entrant / owner, must be in perfect running order at all time and, provided with all necessary permits so as to be legally driven on the road. All cars must have valid insurance and documentation as required by traffic law. All road trips shall, however, be made freely and individually and not in the form of an organised transfer.

Art. 6

The Selecting Committee will group the cars into classes according to reasonable criteria of similarity. The vehicles must line up on Saturday and Sunday in the areas provided for their class.

Art. 7

Cars shall be inspected and judged by the Jury during the Saturday and Sunday morning, as specified in the full programme. The entrant / owner or a nominated representative must present the car during the Jury's inspection. Cars which do not attend Saturday's and Sunday's presentation will be excluded from the selection of the trophies and any trophies awarded may be revised by the Organising Committee.

Art. 8

If necessary, the Jury may be divided into teams, each led by a Team Leader, responsible for the compilation and presentation of the results. The Jury shall be assisted by a non-voting Jury Secretary. In the event of tied points scores between two or more cars, the President of the Jury, after consulting the Jury members, has decision-making powers to which there is no appeal, including the right to modify his / her own vote in the event of a tie. The Jury's decisions are final and thus no appeals or objections may be presented after publication of the official results.

Art. 9

The traditional focus of judging at the Concorso d'Eleganza Villa d'Este is on the design, styling, elegance and overall appearance of the Historic Cars. The judging process is conducted within a timeframe of approximately 15 minutes for each vehicle. During this appraisal, the Jury evaluates the originality and authenticity of the individual vehicle. These aspects encompass the correct performance of restoration for the interior and exterior of the vehicle, the mechanical aspects and the authenticity of the components used, along with their functionality. The provenance of the vehicle and its historical significance in terms of design and technology are also assessed. In order to qualify for a Preservation Award, the vehicle has to be liveried in the original paint finish and must feature the factory-installed interior trim. It also needs to be equipped with mechanical components that were originally fitted to the vehicle on the assembly line at the factory. Owners or their representatives will be asked to assist the judges in accomplishing their task, as the judges are not permitted to touch the vehicles.

Art. 10

Entrants / owners (or their representative) may during the presentation provide the Jury with any relevant documentation regarding their car and its history which they believe to be useful in reaching an appropriate evaluation. In the case of unique or unusual features, adequate documentation confirming any variations or options with respect to the standard model should be provided. Non-original safety elements such as rear-view mirrors, seat belts or fire extinguishers etc. may be allowed on condition that their fitting does not compromise the originality of the car. The Jury shall penalise highly unusual colour schemes and non-original chrome, nickel, cadmium or other metal plating. Replaceable parts such as tyres, batteries, spark plugs and so on should conform as closely as possible to the original items.

Art. 11

Decals, sign-writing, sponsors' logos or race numbers are not allowed except for sports cars with a racing background and clear historical evidence of this. A club badge containing no advertising – not even partial – and no larger than 10 x 10 cm may be placed on the car.

Art. 12

The following awards will be voted and given to the winners during the event days 25 and 26 May 2024:

- "BMW Group Trophy" awarded to the "Best of Show" voted by the Jury
- "Coppa d'Oro Villa d'Este" award voted by secret ballot (public referendum)
- Class Winners and Prix d'Honneurs voted by the Jury
- Special awards voted by the Jury
